Profile

As an automation tester, passionate about using technology to streamline and optimize software testing processes. With my expertise in programming languages, automation frameworks, and test automation tools, I help companies save time and money by detecting defects early in the software development cycle.

Education

BCA 2018 - 2021

Vel Tech Arts College,
Chennai.

Work Experience

Automation Tester Jan 2022 - Present
(Trainee- Engineer)

LTI MINDTREE

During my tenure, I have demonstrated proficiency in developing and executing automated test scripts, analyzing test results, and reporting defects to the development team. I have experience in test case design, and test execution, as well as in creating test reports and documentation.

LTI MINDTREE NXT - Project

Mindtree NxT - Helping businesses evolve next gen processes and products by fusing design thinking with cutting edge technologies including IoT and AI/ML led analytics
